

Low-altitude Economy Regulatory Sandbox Ⅹ (“Sandbox Ⅹ”)

List of Other Pilot Projects to be Implemented (First Batch)

After review by the Working Group on Developing Low-altitude Economy (“WG”), a first batch of nine other pilot projects will be included for implementation in Sandbox Ⅹ. The implementation is contingent upon the applicants’ acceptance of the approved conditions, which include, but are not limited to, routing, testing parameters, and timeframes that may differ from those outlined in the submitted applications.

The Project Facilitation Task Force (“TF”) under the WG will liaise with the applicants and coordinate among various technical departments for the implementation of Sandbox Ⅹ projects. Based on the feasibility and readiness of the projects, implementation will take place in batches. With safety being the top priority, the TF will adopt a progressive approach to pilot projects, in terms of flight path, route planning, flight distance, etc., in order to ensure safety of low-altitude flying activities.

	Applicant <i>(In alphabetical order)</i>	Details
1.	CLP Power Hong Kong Limited	Collaborating with POI Corporation Limited
2.	DAMODA UAV (HK) Company Limited	Collaborating with (i) China Taiping Insurance (HK) Company Limited; (ii) Esri China (Hong Kong) Limited; (iii) X Social Group Limited; and (iv) Greater Bay Area Low Altitude Economy Alliance
3.	Hong Kong Aircraft Engineering Company Limited	-
4.	Innology Multi-tech Limited	Collaborating with Aerovision Technology Limited

	Applicant <i>(In alphabetical order)</i>	Details
5.	Jadason Technology Limited	Collaborating with (i) Vocational Training Council; (ii) Planning Department; and (iii) Chengdu JOUAV Fusion Tech Co., Ltd
6.	Ocean Park Corporation	Collaborating with Droneology Company Limited
7.	The Hong Kong & China Gas Company Limited	-
8.	The Hong Kong University of Science and Technology (“HKUST”)	-
9.	HKUST	Collaborating with (i) HKUST Low Altitude Economy Research Center; and (ii) RaSpect Intelligence Inspection Limited
