Subject: Supporting HK Airport going private
 Urgent Return Receipt

27/05/2005 09:51

Dear Sir/ Madam,

I support the privatisation of Hong Kong International Airport. It is the pride of Hong Kong and it is a world class airport.

With the airport being privatised, the new company will be more directly accountable to its shareholders - that is the general public, and will be more responsive to public needs.

I believe this will enhance even more the airport's performance and reputation in the region.

Thanks for your kind consideration!
David Fung
